

## A Popcorn Game for Preschoolers

# How to play

- Print, cut out and laminate the popcorn pieces
- Place the pieces in a container (a popcorn bucket from the dollar store works great)
- Players take turns pulling a piece of popcorn and identifying the letter on the kernel.
- If player is correct they keep the kernel, if incorrect they put it back in the bucket.
- If a “pop” piece is drawn player puts all their pieces back in the container. Play continues until set time is up. Player with most pieces wins.
- Variation: If “pop” piece is drawn game is over player with most pieces is winner
